Fees are displayed in multiple currencies, however, GBP is the primary billing currency. In the event of foreign exchange (FX) rate fluctuations, any fees shown in USD or EUR are indicative only and may be subject to recalculation based on the prevailing GBP exchange rate.

Additional fees charged by correspondent banks may be applied (for both incoming and outgoing payments).

The ultimate and final decision on the assigned category lies with Emerald24.
The criteria indicated above to determine the category apply in the majority of the cases, but not always.
Special fees may be applied to clients falling under certain criteria.

When transacting a payment from Emerald24 (account or card), Emerald24 as an issuer of electronic money redeems electronic money for their nominal value.

Electronic money is exchanged for fiat money with an exchange rate of 1:1.

The fees outlined in the table represent charges for redemption of electronic money.
